CONVOCATION

MAY 2024

# School of Engineering

## Convocation Class of 2024

Jersey Mike's Arena  
Friday, May 10, 2024

## **School of Engineering Administration**

Alberto Cuitiño, Ph.D., *Dean*

Kimberly Cook-Chennault, Ph.D., *Associate Dean for Diversity, Equity, and Inclusion*

Hae Chang Gea, Ph.D., *Associate Dean for Graduate and Professional Education*

Susan Kilduff, MPA, *Vice Dean for Administration and Planning*

Ilene Rosen, Ed.D., *Associate Dean for Student Services*

Peng Song, Ph.D., *Associate Dean for Undergraduate Education*

Wade Trappe, Ph.D., *Associate Dean for Academic Programs*

## **Undergraduate Education**

Jean Patrick Antoine, M.Sc., *Assistant Dean for Enrichment Programs, Director of Honors Academy*

Michael Brown, Ed.D., *Assistant Dean for Student Access and Inclusion, Director of Educational Opportunity Fund*

Jesenia Cadena, M.Ed., *Assistant Dean for First-Year Students*

Priscilla E. Calderón, Ed.M., *Assistant Dean for Academic Services*

Robert Ciervo, Ph.D., *Assistant Dean for Transfer Services*

Aiesha Long, Ed.D., *Assistant Dean for Academic Services*

Arron Rodriguez, MBA, *Assistant Dean for Outreach and Engagement*

Candiece White, MBA, *Assistant Dean/Assistant Director for Educational Opportunity Fund*

## **Departments and Programs**

### **Applied Sciences in Engineering**

Peng Song, Ph.D., *Director*

### **Environmental Engineering – joint program with School of Environmental and Biological Sciences**

Donna Fennell, Ph.D., *Chair*

### **Department of Biomedical Engineering**

Charles Roth, Ph.D., *Chair*

### **Department of Chemical and Biochemical Engineering**

Helen Buettner, Ph.D., *Chair*

### **Department of Civil and Environmental Engineering**

Nenad Gucunski, Ph.D., *Chair*

### **Department of Electrical and Computer Engineering**

Yingying Chen, Ph.D., *Chair*

### **Department of Industrial and Systems Engineering**

Mohsen Jafari, Ph.D., *Chair*

### **Department of Materials Science and Engineering**

Lisa Klein, Ph.D., *Chair*

### **Department of Mechanical and Aerospace Engineering**

Assimina A. Pelegri, Ph.D., *Chair*

## **Order of Exercises**

### **PROCESSIONAL**

#### **PRESIDING OFFICER**

Alberto Cuitiño, Ph.D.

*Dean*

Rutgers School of Engineering

#### **MUSICAL SELECTIONS**

Rutgers Glee Club

#### **WELCOMING REMARKS**

Alberto Cuitiño, Ph.D.

#### **LAND ACKNOWLEDGEMENT**

Jean Patrick Antoine, M.Sc.

*Assistant Dean, Enrichment Programs*

#### **INTRODUCTION OF STUDENT SPEAKERS**

Ilene Rosen, Ed.D.

*Associate Dean, Student Services*

#### **STUDENT WELCOME**

Katie Lynch ENG'24

*President, Engineering Governing Council*

#### **KEYNOTE ADDRESS**

Randal Pinkett, Ph.D. ENG'94

*Co-founder, Chairman, and CEO*

BCT Partners

#### **STUDENT SPEAKER**

Sidhanth Shakelly ENG'24

#### **RUTGERS ENGINEERING ALUMNI**

Parth Oza ENG'12

#### **2024 PRESENTATION OF DIPLOMAS**

Department Chairpersons and Undergraduate Directors

### **RECESSIONAL**

*All graduates are requested to remain seated until  
the turning of the tassels and the recessional.*

## Keynote Speaker

Alumnus **Randal Pinkett** is a noted entrepreneur, innovator, speaker, author, media personality, and DEI expert. He is the co-founder, chairman and CEO of BCT Partners, a global research, training, consulting, technology, and data analytics firm that Inc. 5000 has recognized as one of the nation's fastest-growing private companies, and by Forbes as a "Best Management Consulting Firm." BCT has been named a Top 10 firm for diversity and inclusion by Manage HR magazine and is one of Black Enterprise's BE100s list of the nation's largest Black-owned businesses.

As a contributor to MSNBC, CNN, and Fox Business News, Pinkett's expertise encompasses areas such as emerging technologies, big data analytics, social innovation, culture, and DEI. An international public speaker, he has authored or co-authored several books, including *Black Faces in High Places* and *Data-Driven DEI*.

He earned his bachelor's degree in electrical engineering from Rutgers, where he was the captain of the men's track and field team and is an inductee into the Academic All-America Hall of Fame. He was the first African American Rutgers graduate to receive a Rhodes Scholarship to the University of Oxford, where he earned a Master of Science degree in computer science. He subsequently earned a second master's degree in electrical engineering, an MBA, and a doctoral degree from MIT. He was also a winner of NBC's show "The Apprentice."

Pinkett lives with his family in Somerset, New Jersey, where he strives to give back to the community.

## Student Speakers

**Katie Lynch**, a citizen of the Potawatomi Nation, is graduating from the School of Engineering with a bachelor's degree in biomedical engineering. On campus, she served as engineering student body president, president of RU Indigenous Turtle Island, and international vice president of Circle K International. She was an undergraduate research assistant in the Department of Cell Biology and Neuroscience, a diversity peer educator in the Division of Student Affairs, and a member of the Reilly Douglass Engineering Living-Learning Community. Ms. Lynch is also a 2023 Truman Scholarship nominee for Rutgers University and the winner of the 2024 Jewel Cobb Plummer STEAM Trailblazer Award. She is a passionate health justice advocate and was a White House intern and a TEDx speaker. After graduation, she will be pursuing a doctoral degree in health infrastructures and learning systems at the University of Michigan Medical School while continuing her advocacy work for Indigenous communities around the country.

**Sidhanth Shakelly** is from Hightstown, NJ and is graduating with a bachelor's degree in biomedical engineering. During his time on campus he was involved in several student organizations including Engineering Governing Council, RU e-NABLE, Residence Life, and intramural sports. He held internships at Johnson & Johnson and Curia Global and conducted research in the Department of Biomedical Engineering under Dr. Martin Yarmush. He also volunteers as an EMT in his hometown. After graduation, he will continue at Rutgers, pursuing a master's degree in biomedical engineering.

## **Educational Opportunity Fund & Engineering Opportunity Program**

The Educational Opportunity Fund (EOF) program is one of the nation's most comprehensive and successful state-supported efforts to provide access to higher education for economically and educationally disadvantaged students. Building upon its success, the EOF program at Rutgers School of Engineering was expanded in 2014 to include the Engineering Opportunity Program (EOP). EOF/EOP aligns with the missions of the State of New Jersey, Rutgers University, and the School of Engineering, fostering the educational, personal, and professional development of talented, highly motivated students who are interested in a career in engineering and come from educationally and/or financially disadvantaged backgrounds. Through a myriad of programs and working with faculty and staff across the school and the larger university, EOF/EOP recruits, retains, and graduates a diverse and socially, culturally, academically, and professionally competent population, while also building awareness of the field of engineering for students, parents, and educators.

### **Rutgers School of Engineering Honors Academy**

The Rutgers School of Engineering Honors Academy is a scholarly and community-focused program that offers students a unique opportunity to reach their full potential inside and outside the classroom. The program is designed to challenge, inspire, and support a select group of highly self-motivated engineering students who demonstrate remarkable academic ability, enthusiasm, intellectual curiosity, and a clear potential to make a difference as engineering leaders.

### **Rutgers University–New Brunswick Honors College**

The Honors College, built on a legacy of honors education at Rutgers University–New Brunswick, redefines interdisciplinary education by inviting students from across the liberal arts and professional schools to live and work together to address global issues through social innovation and transform their ideas into action.

### **James Jeremiah Slade**

During his long and legendary tenure as a professor of engineering mechanics at Rutgers University, James Jeremiah Slade was a noted researcher, a brilliant mathematician, and beloved by the students he taught for 36 years. Slade, who retired in 1964, received worldwide acclaim for his discoveries on the mechanics of turbulent sedimentation and self-excited oscillations and is credited with attracting many of the researchers who brought prominence to the School of Engineering, as well as to the university. The James J. Slade Scholars carry on a tradition of excellence in scholarship and research as exemplified by Slade.

## About Rutgers School of Engineering

Chartered as Queen's College in 1766, Rutgers was the eighth institution founded prior to the Revolutionary War. In 1825, the name was changed to Rutgers College in honor of Colonel Henry Rutgers, a veteran of the Revolution, "in gratitude for his numerous services" to the institution.

Under the land-grant program of 1864, instruction in agriculture, engineering and military education was introduced, and a program leading to the Bachelor of Science degree was established. The College of Arts and Sciences and the College of Agriculture and Engineering, designated separate units in 1914, were joined in 1918 by the New Jersey College for Women (which later became Douglass College). In 1917, the state legislature named the Rutgers Scientific School, which included the Colleges of Agriculture and Engineering, as the state university of New Jersey, and in a similar action in 1945 all the units of Rutgers and the Agricultural Experimentation Station became truly the state university.

Engineering at Rutgers dates to 1864. Brevet Major Josiah Holcomb Kellogg, an 1860 graduate of West Point, was the first professor of engineering. The initial program, primarily civil engineering, produced a graduating class of seven in 1868. The first professor of electrical engineering was appointed in 1903, and in 1908 the Department of Mechanical Engineering was organized. In 1902 an act of state legislature established a ceramics department which became part of the College of Engineering in 1945.

The College of Engineering as a coordinate division of the university was created in 1914 and the Engineering Experiment Station was established in 1926. In 1999, the College of Engineering was renamed the School of Engineering to reflect the comprehensive nature of our programs.

Today, the School of Engineering is a vibrant academic community whose richly diverse students and faculty members are committed to globally sustainable engineering. Its mission is built on a commitment to fostering the integration of education and research to achieve transformational innovation that is ethically responsible. With seven academic departments representing key engineering disciplines, world-renowned faculty, and nationally ranked research centers, the School of Engineering is recognized around the world as comprehensive and leading-edge, training the next generation of innovators across a broad spectrum of professions.

## On the Banks of the Old Raritan (Rutgers Alma Mater)

From far and near we came to Rutgers,  
And resolved to learn all that we can;  
And so we settled down,  
In that noisy college town,  
On the banks of the old Raritan.

*Refrain:*

On the banks of the old Raritan (my friends)  
Where old Rutgers evermore shall stand,  
For has she not stood  
Since the time of the flood,  
On the banks of the old Raritan.

Then sing aloud to Alma Mater  
And keep the scarlet in the van'  
For with her motto high  
Rutgers' name shall never die  
On the banks of the old Raritan.

## The Bells Must Ring (Rutgers 'Fight Song')

March, (wo)men of Rutgers  
Down the field today.  
March to another score,  
Forward to the fray;  
Fight, men of Rutgers  
As in days gone by  
Fight! For the Scarlet Flag over the rest must fly.

Keep Rutgers colors to the fore  
For they must win so fight, fight, fight!  
And we'll advance some more to score,  
The Rutgers flag flies high tonight, alright, alright  
We'll fling the Scarlet Banner out,  
And Rutgers (wo)men will fight, fight, fight, fight, fight;  
The bells of Queens each victory shout  
The bells of Queens must ring tonight.

RU, Rah, Rah;  
RU, Rah, Rah,  
Whoo-Rah, Whoo-Rah;  
Rutgers Rah  
Up Stream Red Team  
Red Team Up Stream  
Rah, Rah, Rutgers Rah

Keep Rutgers colors to the fore  
For they must win so fight, fight, fight!  
And we'll advance some more to score,  
The Rutgers flag flies high tonight, alright, alright  
We'll fling the Scarlet Banner out,  
And Rutgers (wo)men will fight, fight, fight, fight, fight;  
The bells of Queens each victory shout  
The bells of Queens must ring tonight.

## The Academic Costume

The wearing of academic dress dates back to the early days of the oldest universities in the world. In the American Council on Education's book entitled *American Universities and Colleges*, it is suggested that "Gowns may have been counted necessary for warmth in the unheated buildings frequented by medieval scholars. Hoods seem to have served to cover the tonsured head. . . ."

Throughout the years, European universities have continued to show great diversity in their academic dress. American universities, on the other hand, when they decided to adopt academic dress, immediately established a code of regulations which today is followed by almost all American institutions. The establishment of this code has made it possible to distinguish the bachelors, masters, and doctors and, at the same time, recognize the university which has given the degree.

The bachelor's gown has pointed sleeves and is worn closed. The master's gown, worn open or closed, has oblong sleeves, the front part of which frequently is cut away at the elbow. The doctor's gown has bell-shaped sleeves. It is worn open or closed. Cotton poplin or similar material is used for the bachelor's and master's degrees, and rayon or silk ribbed material is used for the doctor's degree.

At Rutgers, members of the Board of Governors and Board of Trustees, as well as those who hold a doctoral degree from the university, wear the Rutgers gown, which is scarlet with black velvet front panels framed on the outer edge with gold cord braid. The velvet panels are embroidered with a crown and the year 1766 at the neck, signifying the university's founding as one of the original colonial colleges under King George III of England.

The hoods vary in size: 48 inches for the doctor's degree, 42 inches for the master's, and 36 inches for the bachelor's. All hoods are lined in silk in the academic color or colors of the institution conferring the degree. If the institution has more than one color, the colors are shown in divisions using chevrons. The binding or edge of the hood is usually made of velvet in the color designating the subject in which the degree was granted. Black mortarboards are worn for all degrees.

Some of the colors in the binding of the hood are: maize, Agriculture; white, Arts and Letters; orange, Engineering; purple, Law; lemon, Library Service; green, Medicine; light blue, Education; olive, Pharmacy; blue, Philosophy; gold Science; and citron, Social Work.

The color or colors of the lining of the hood for the nine colonial colleges are: scarlet, Rutgers; crimson, Harvard; green-gold-silver, William and Mary; blue, Yale; red-blue, Pennsylvania; orange-black, Princeton; light blue-white, Columbia; brown, Brown; and green-white, Dartmouth.
